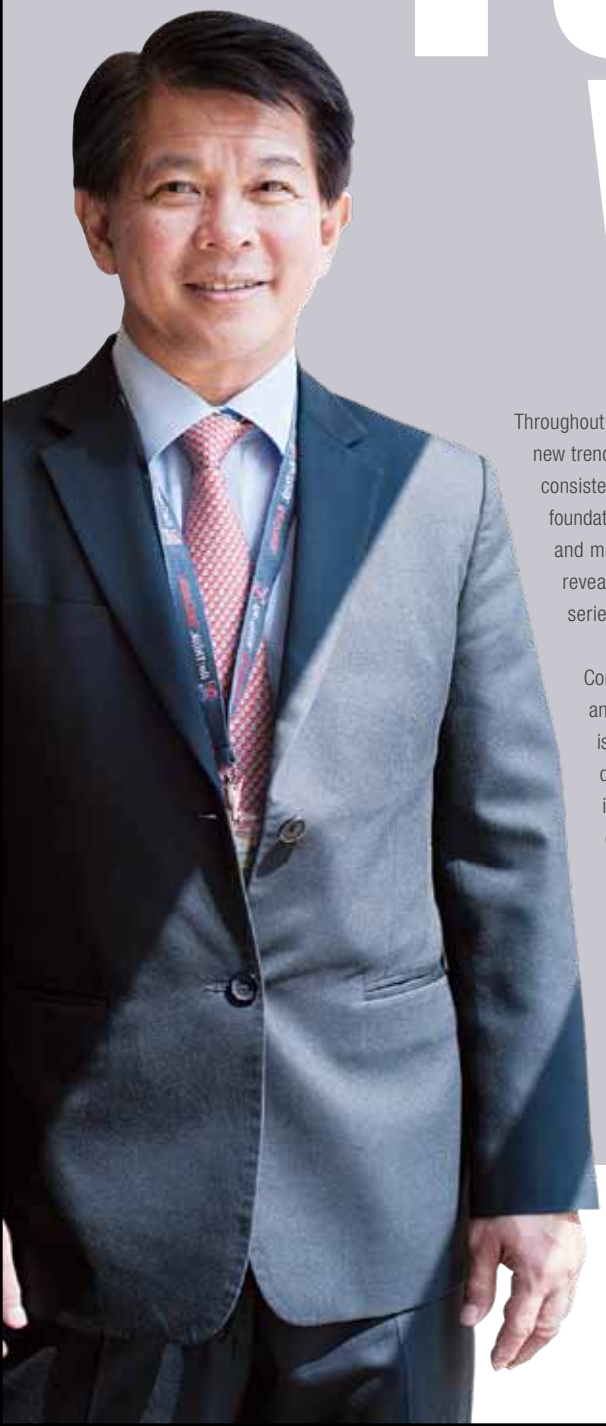
Fore-Word



Throughout the years that I have been in the paint and colour industry, one thing's certain: change. As culture changes, new trends arise and people ebb and flow with these changes as well. Granted, lifestyle patterns and taste are also consistently evolving; hence, when we talk about colours, palettes also move with the waves of change. This is the foundation of Trend Beyond Colours which offers a compendium of major colour trends that will influence living spaces and marketplace in 2015/2016. With this, Nippon Paint truly appreciates the forecast results that were recently revealed at the Nippon Paint Colour Chromazome Workshop, an event which beautifully 'delivered' the birth of a series of wonderful Asian colour palettes by Asian professionals.

Containing nine key trend palettes, Trend Beyond Colours arises from three themes; "Sacred Love", "Just Me", and "Revo-Evolution", all of which are translated into unique decorative coatings for the Asia market. Each colour is derived carefully from the way we live, breathe fashion, while creating awareness that colours go far beyond designer collections and artful concepts. Every colour has its own story. We've analyzed how behaviour is influenced by colours, fashion, retail performance, lifestyle trends and culture influences and digested them into easy-to-use colour inspirations.

Our passion for colours constantly propels us on to the newest ideas, while our collective experience gives us a guiding instinct for what consumers love. And as trends emerge throughout the season, we believe colours will gain more popularity in our living spaces as well. Above all, enjoy the journey of colours with us and we hope that this beautiful book would serve as a wonderful inspiration for you.

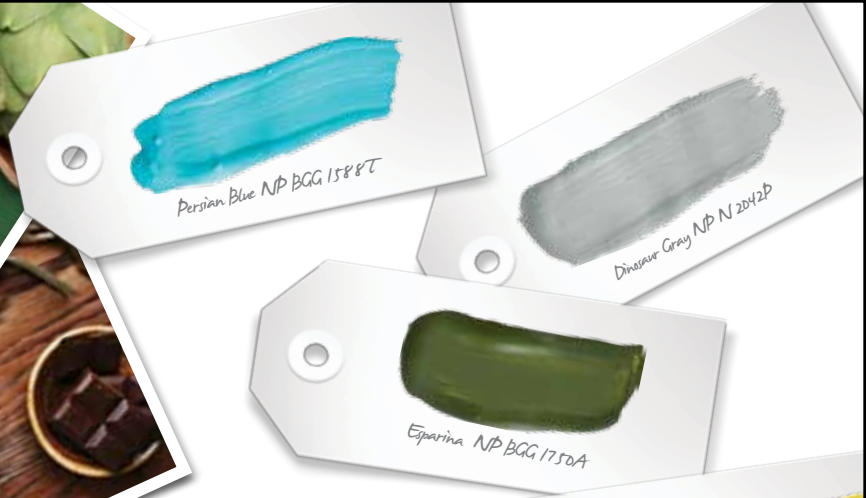
This year, 3 colour stories are brought to the spotlight, represented by 9 key colours to illustrate the ideals and inspiration behind these colour themes. To showcase how trendy colours can be effectively used to turn ordinary spaces into spectacular masterpieces, there are also a plethora of palettes handpicked by industry professionals such as interior designers and architects from the Asia Pacific region. Rest assured, the colours you see in this book can be turned into reality through the use of paint.



THE COLOUR STORIES

Sacred Love

We love and appreciate Planet Earth. Amidst our diminishing resources such as quality air, gold, oils and water, we need to find ways to protect the environment. In Asia, this is more pronounced with many ongoing developments, resulting in pollution; for instance a high level of smog. Sacred Love is a calling for sustainability and to conserve our natural resources so that our community can enjoy nature and live a balance and healthy life. Within this theme, three colours are selected: **Persian Blue NP BGG 1588T**; **Dinosaur Gray NP N 2042P** and **Esparina NP BGG 1750A** to exemplify the beauty of nature and our responsibility to protect and preserve it.

Just Me ;)

Who am I? Individualism is fast becoming an identity of our generation. Mainly influenced by Gen-Y, we are now looking to stand out and express ourselves in individualistic ways. This is the era of young entrepreneurs where "Love what you do and do what you love" - the lines between passion and profession are merging into one. Here's where technology continues to impact us by ensuring that we stay socially connected as we aim for individuality. **Yellow Jasmine NP YO 1100D**, **Pretty Box NP R 1321P** and **Carrothead NP AC 2065A** bring forth this theme in bright and inspiring ways that beckon us to live life to the fullest and be who we want to be.

Revo-Evolution

Online or real life? Employed or entrepreneurship? These questions signify the rising trend of "Revo-Evolution" which revolves around connecting with the younger generation as we manage generation gaps. We are presented with many needs, wants and choices yet struggle to have more time and money to attend to all of them. This theme also questions our age - how old is old? To represent these issues, three colours are in the forefront: **Blue Award NP PB 1520D**, **Painted Frame NP N 1904A** and **Olde Rose NP N 1893P** inspire positivity and hope while offering a touch of sophistication, trustworthiness and elegance - everything we need to adapt to a changing world.

Inspirations, insights and creative ideas from different sources serve as the foundation for the three inspired themes and nine unique colours of Trend Beyond Colours 2015/16. In this video, see how they are created.

1 Persian Blue NP BGG 1588T

PERFECT HARMONY

Persian Blue NP BGG 1588T is a colour inspired by the best gifts of nature, offering us a sense of renewal and reassuring us that whatever we need will be provided for. This nature-loving colour asks us to create a new balance between corporate pressures, job creation and where to draw the line in the preservation of our world's natural resources.

Use Persian Blue NP BGG 1588T as a balancing accent to inject a dose of cool cheerfulness into the everyday interior. Accent fabrics, pillows, vases and glasswares all help to add pops of blue without too much effort. Lighter shades of blue or wood tones can offer an equally compelling contrast to Persian Blue when used right.

DINOSAUR GRAY

NP N 2042P

YES TO LIFE

It's time to say "No": no to pollution, no to destroying nature's gifts, no to violence and intolerance. Instead, let's say yes to all that heals and all that brings hope, peace, joy and health. As a neutral colour of the Earth, Dinosaur Gray NP N 2042P is the expression of this theme. A colour of intellect and beauty, this shade of gray expresses a classic ambience that is conventional, dependable and practical. It is a colour that speaks of dignity and quiet confidence to know what is good and right for us.

DESIGNER'S TIPS

"Dinosaur Gray NP N 2042P has a timeless and classic quality which suits any architectural or interior project. This colour matches with any man-made and natural materials on buildings. It gives off an elegant appeal as a background colour but it also works as a foreground colour when used with appropriate forms and shapes."

Esparina

NP BGG 1750A

IN THE HEART OF NATURE

Nature expeditions are fine, for a while, but we still remain urban dwellers at heart. A touch of nature in our lives will remain important, as long as it's comfortable. Esparina NP BGG 1750A exemplifies this; this colour contains natural resources in its heart, reminding us of the characteristics of nature that can be applied into city living. It is about creating green breathing spots in our urban lifestyles, giving us a safe environment to escape from technology, so that we can switch off, rewind and renew.

Design Spirits Sdn. Bhd.

DESIGNER'S TIPS

"Esparina NP BGG 1750A represents a natural ambiance but at the same time also complements modern colours such as grey, yellow gold and orange. The combination of these colours will produce a contemporary-natural palette."

Cosmas Damianus Gozali,

Esparina NP BGG 1750A proves to be a fantastic shade for interior decorating because it's almost akin to a neutral color that can work beautifully with soft subtle colours, but at the same time this dark green is also capable of overpowering weaker colours.

POWER OF PINK

"I am a boy and I love pink." Pink has become a universal colour and not just a colour for girls. Pretty Box NP R 1321P expresses how gender boundaries are dissolved, inspiring us to create equality between "him" and "her". Here, we see Pretty Box NP R 1321P expressing the theme of gender balance in an interesting manner. At first impression, it appears to be a girly colour, but when you delve deeper, it offers more. In this case, Pretty Box NP R 1321P brings out the passion and the power of red softened with the purity, openness and completeness of white.

Deep White Design Sdn. Bhd.

A blend between pink and purple, Pretty Box NP R 1321P can be used in a contemporary colour palette that is neither too feminine nor too masculine, creating a truly delicious interior that warms the heart immediately. This shade works best in spaces that require a softer hue to tone down solid surfaces. Paired with retro elements and contemporary pieces, Pretty Box NP R 1321P ties everything beautifully together to give you an interior that is chic and current.

Olde Rose NP N 1893P

NEUTRAL BEAUTY

Olde Rose NP N 1893P is a beautiful shade that represents our search for admiration and respect. At times, we would like to stand on the fence to be neutral and staying accepted, and that's fine. But more significantly, we must embrace the spirit of change and see the beauty in everyone without discrimination. In all, this colour takes the stage to carry this message about what real beauty means. There is also a touch of modernity to this colour, reminding us literally to stop to smell the roses amidst our hectic world.

Light pink is associated with gentleness and comfort, which makes Olde Rose NP N 1893P a perfect backdrop colour for spaces that require a dose of lush coziness - for instance, the bedrooms or family rooms. Multiple shades of pink and light purple or other pastels used together will maintain the soft, delicate and playful nature of Olde Rose. You can also add strength to this colour with darker shades of pinks and burgundy.
